By state law, the Napa Valley Community College District is under the control of a Board of Trustees composed of seven community members. Elected from within established areas of the district, trustees serve four-year terms. Students are represented by a student trustee, who is selected yearly as part of the ASNVC elections.

Mission Statement

Napa Valley College prepares students for evolving roles in a diverse, dynamic, and interdependent world. The college is an accredited open-access, degree- and certificate-granting institution that is committed to student achievement through high-quality programs and services that are continuously evaluated and improved. The college serves students and the community in the following areas: transfer courses, career-technical education and training, basic skills, and self-supporting contract education and community education classes.

Budget Message

September 4, 2018

To: Dr. Ronald Kraft, Superintendent/President
From: Robert Parker, Assistant Superintendent/Vice President, Administrative Services

Enclosed for your information, please find the FY 2018-2019 Final Budget (“Final Budget”). The Final Budget reflects estimates of state revenue as per the Chancellor’s Office Advance Apportionment and other budget planning assumptions as reviewed and recommended by the District Planning and Budget Committee. On September 4, 2018, a Campus Forum was held to discuss the budget and following the Campus Forum, the District Planning and Budget Committee conducted a final review of the budget and recommended forwarding the budget to you. The District Planning and Budget Committee will play a very important role in monitoring the District’s budget status as we move through the fiscal year.

The Final Budget presented to you today reflects only two significant changes or adjustments when compared to the Tentative Budget presented to you and approved by the Board of Trustees on June 14, 2018. The adjustments reflect an increase in Local Income reflecting additional Local Property Tax Revenue, and an increase in budgeted capital outlay costs reflecting additional spending on campus improvements and instructional equipment. The following pages show Final Budget numbers along with the 2017-2018 Adopted Budget and the 2018-2019 Tentative Budget approved in June for comparison purposes.

Overview of this Document

Included in this document for review and adoption by the Board of Trustees are the 2018-2019 Final Budgets for the General Fund, Child Care Fund, Capital Outlay Projects Fund, Post-Retirement Benefits Fund, California Employers’ Retiree Benefit Trust, Debt Service Funds – Series A, B & C, Associated Student Body Fund, and Student Representation Fee Trust Fund.

Staff Recognition

I want to thank the Planning and Budget Committee 2017-2018 Co-Chair, Maria Biddenback and the 2018-2019 Co-Chair Steven Balassi, as well as the members of the Planning and Budget Committee, for leadership and oversight of this process. Special thanks to the Business & Finance Office staff, including Joseph Latunski and Solange Kada for their extensive work on the budget.

Integrated Planning and Budgeting

The College's annual budget is developed based on a realistic assessment of financial resources available. In accordance with Title 5 of the Education Code, NVC College Board Policy 6200 – Budget Development requires that the budget development process for the next fiscal year begin early in the current year, so that a Tentative Budget is available no later than July 1 of the new fiscal year.

NVC's institutional goals are reflected in the Strategic Plan. For Fiscal Year 2018-2019, the Planning and Budget Committee identified specific planning priorities for increased focus. The annual unit planning and budget processes have become more integrated over time and NVC utilizes multiple planning tools to support planning for financial resources. The Program Review process combines self-study, evaluation, and planning for all instructional programs, academic and student support services, and administrative services at NVC. Each program completes the evaluation and planning process at least once every six years.

The planning effort continues with annual unit plans which are informed by Program Review and uses updated data provided annually. The unit plans are responsive to annual strategic objectives which link to the Strategic Plan. The unit plans contain the opportunity to request additional staffing and resources. Unit plans contain prioritized initiatives. The prioritized unit plan is forwarded to the appropriate Area Council (Academic Affairs, Student Affairs, Administrative Services, or President's Area) where they are consolidated and prioritized. The area plans are finally forwarded to the Planning and Budget Committee.

The Planning and Budget Committee process is informed by decision supports approved by the Board of Trustees including the College's Budget Development Values and Assumptions. This process is also meant to work under circumstances of reductions and allows for reallocation amongst units within an area based on priorities, or between areas at a college-level. The Planning and Budget Committee provides a yes or no recommendation to the President based on the availability of resources.

Informed by the Governor's State Budget and projections of local revenues, the College's fiscal services team, in collaboration with the Planning and Budget Committee, develops strategic budget development values and assumptions that are aligned with the annual planning priorities and are codified in areas of fiscal stability, personnel, legal mandates, grants, and expenditures. The Board is provided the annual College Planning Priorities and the Budget Development Values and Assumptions, all of which are included in the Tentative and Final budget development process.

Planning Priorities 2018-2019

- Work with local educational partners to promote opportunities at NVC and equip incoming students with the skills and resources needed for college success
- Engage NVC students and assist in their progress towards educational and job training goals
- Increase NVC student achievement and completion of educational and job training goals
- Ensure the fiscal stability of NVC as it transitions to a community-supported district
- Enhance collaboration between NVC and community & civic partners

2018-2019 Budget Development Values and Assumptions

I. Integration to Planning

The NVCCD 2018-2019 Tentative and Final Budgets will be developed consistent with the Annual Planning and Budget Process that has been approved through the institution's shared government processes. As resources allow NVCCD will fund priorities consistent with area plans.

II. Fiscal Stability

The Board of Trustees is committed to ensuring that financial resources are sufficient to support and sustain student learning programs and services, college operations, and institutional effectiveness. Board Policy 6200 Budget Preparation, compliance with the State Chancellor's fiscal monitoring requirements, and Title 5 regulations related to principles for sound fiscal management, ensure fiscal stability and integrity.

The 2018-2019 Budget including all sources and uses of funds should be developed on the basis of projected revenue and expenditures in order to avoid deficit spending. The Board of Trustees may consider using a portion of the ending balance to fund one-time expenditures that are consistent with institutional goals and objectives. Investment to support the development of alternative forms of ongoing revenue may be made if consistent with the College's strategic plan.

In keeping with the Chancellor's Office directive regarding maintenance of reserves, NVCCD has historically maintained a 5% reserve. To ensure NVCCD's ability to avoid cash flow shortages and as required by the Chancellor's Office Institutional Effectiveness Partnership Initiative, the Budget Committee recommended establishing a 12% reserve to cover two months of payroll. Projections for 2018-2019 reflect maintenance of a 13% reserve.

III. Personnel

The District is committed to the concept that all employee groups (Administrative, Faculty and Classified staff) play an important role in educating and serving students and all employees will be respected and valued for their contributions to the success of students.

As a result, whenever possible, restructuring positions and/or programs, transfers of existing staff, and delays in hiring will be considered in order to support the fiscal stability of the District. Every vacancy will be analyzed to determine the extent to which the position is essential to college operations.

The use of temporary, hourly employees will be limited to short term assignments during peak periods, or in the absence of permanent staff essential to maintain educational programs and basic services.

The District will use actual costs for current employees and mid-range estimates for vacant positions when developing the baseline budget for salaries and benefits. Increases will be added based on contractual obligations for wages and estimated escalation assumptions for benefits.

IV. *Legal Mandates*

The District will meet all legally mandated (state and federal) obligations. The District will meet the legal requirements of the 50 percent law and faculty obligation number (FON).

V. *Contractual Requirements*

The District will honor all financial commitments resulting from any negotiated collective bargaining agreements and ongoing contractual obligations.

VI. *Grants and Categorical Funding*

Grant applications will be carefully reviewed to ensure that the required deliverables are consistent with the mission and strategic plan of the college. Whenever possible, grants should include funding to reimburse the District for administrative overhead expense and should not obligate the District to ongoing expenses after expiration of the grant funding period. Match or effort considerations must also be considered when considering the grant package.

Categorical funding will be spent consistent with the program purpose. Flexibility in program funding (block grants) will be considered as a component of the planning and budget process.
