

Program or Area(s) of Study under Review:

## NON-CREDIT PROGRAMMING

Summary of Program Review:

### A. Major Findings

#### 1. Strengths:

- Over the past three years, the average class size for the Non-Credit Programming Program was significantly higher than the institutional average.
- English as a Second Language implemented four certificates of competency.
- Faculty engagement and community involvement
- Faculty continue to be a point of strength in developing, assessing, and sustaining these courses
- Working with AB705 to develop curriculum, the math department developed MATHNC-810, designed to increase student support and completion.

#### 2. Areas for Improvement:

- Over the past three years, the average student per section for the Non-Credit Programming Program was lower than the credit average.
- The three-year program productivity of 13.6 is lower than the target level of 17.5.
- Our YEPL and YNVS course curricula need to be reviewed and updated.
- The program needs support to engage students and assist in their progress towards educational and job training goals. (Institutional strategic plan goal 2)

#### 3. Projected Program Growth, Stability, or Viability:

Non-Credit Programming is in growth mode.

- The average class size in the program increased by 27.9%
- Working with faculty to develop new courses and certificates of achievement.

### B. Program's Support of Institutional Mission and Goals

- Description of Alignment between Program and Institutional Mission:

Napa Valley College prepares students for evolving roles in a diverse, dynamic, and interdependent world. The college serves students and the community in the following areas: transfer courses, career-technical education and training, basic skills, and self-supporting contract education and community education classes.

The Non-Credit Programming Program provides students with access to a variety of courses at no cost, to assist them in reaching their personal, academic and professional goals. Noncredit instruction serves as a key contributor to "open access" for students with diverse backgrounds and those seeking ways to improve their earning power, literacy skills and access to higher education. Noncredit course offerings and programs span many disciplines, including English literacy, language arts, nutrition, basic computers, music and the visual arts.

- Assessment of Program's Recent Contributions to Institutional Mission:

- The program has expanded its offering locations, increasing access to students throughout the county.
- Expanded community partnerships, resulting in the development of new course offerings.
- Launched a student support course to help students succeed in transfer-level math.

- Recent Program Activities Promoting the Goals of the Institutional Strategic Plan and Other Institutional Plans/Initiatives:

The contributions listed above and the program's alignment with the institutional mission have helped to promote the institutional strategic plan, in the following areas:

- Work with local educational partners to promote opportunities at NVC and equip incoming students with skills and resources needed for college success.
- Increase NVC student achievement and completion of educational training goals.
- Enhance collaboration between NVC and community and civic partners.

C. New Objectives/Goals:

- New courses and courses with no data points need further evaluation
- Some courses need to be revised
- Increase course offerings across all categories of noncredit.
- Continue to expand locations of noncredit offerings throughout Napa County.
- Expand certificates offered.
- The addition of a dedicated Adult Education counselor will support these objectives and increase student success.

D. Description of Process Used to Ensure "Inclusive Program Review"

This program review was forwarded to faculty in corresponding disciplines for review and feedback.

This report covers the following program, degrees, certificates, area(s) of study, and courses (based on the Taxonomy of Programs on file with the Office of Academic Affairs):

**Program Reflection:**

- A dedicated Adult Education counselor, would help with student persistence and completion of sequenced and skill building courses.
- The data for headcount and enrollment do not provide the information needed to determine if the decline in enrollment are a result of the Corona Virus Pandemic.

Average Section Size across the three-year period for courses, and both within academic years and across the three-year period for the program and institutional levels is calculated as:

$$\frac{\text{Total \# Enrollments.}}{\text{Total \# Sections}}$$

It is not the average of the three annual averages.

**RPIE Analysis:** Over the past three years, the Non-Credit Programming Program has claimed an average of 22.3 students per section. The average class size in the program has been lower than the average class size of 24.6 students per credit section across the institution during this period. Average class size in the program increased by 27.9% between 2019-2020 and 2021-2022. Average class size at the institutional level decreased for credit courses by 6.1% over the same period.

Average class size in the following courses changed by more than 10% ( $\pm 10\%$ ) between 2019-2020 and 2021-2022:

Courses with increases in average class size:

- ARTSNC-954 (36.4%)
- ABEN-755 (35.7%)

The following courses were offered in two of the past three years and had changes in average class size exceeding 10% ( $\pm 10\%$ ):

- ENGLNC-800: average class size decreased by 33.3% between 2019-2020 and 2020-2021
- ENGLNC-801: average class size decreased by 33.3% between 2019-2020 and 2020-2021
- LARN-651: average class size decreased by 25.3% between 2019-2020 and 2020-2021
- ESLNC-810: average class size increased by 34.3% between 2020-2021 and 2021-2022
- ESLNC-855: average class size increased by 100% between 2020-2021 and 2021-2022
- ESLNC-865: average class size increased by 35.5% between 2020-2021 and 2021-2022
- ESLNC-875: average class size increased by 26.3% between 2020-2021 and 2021-2022
- ESLNC-862: average class size increased by 12.5% between 2020-2021 and 2021-2022
- ESLNC-884: average class size decreased by 28.9% between 2020-2021 and 2021-2022
- ESLNC-885: average class size decreased by 64.7% between 2020-2021 and 2021-2022
- MUSINC-740: average class size increased by 90.9% between 2020-2021 and 2021-2022

**Program Reflection:**

- The data for average class corresponds with the presence of leadership across the program. Many of the courses have fluid enrollment.
- The data for average class size do not provide the information needed to determine if the decline in enrollment are a result of the Corona Virus Pandemic.

### 3. Fill Rate and Productivity

<b>Three-Year Program Total</b>	<b>604.0</b>	<b>44.4</b>	<b>13.6</b>
<i>Source: SQL Enrollment and Course Sections Files</i>			
<p><i>RPIE Analysis: Fill rates within the Non-Credit Programming Program tend to be lower than the fill rate at the institutional level. [Compare program-level rate of 44.3% to credit institution-level rate of 74.7% over the past three years.] Between 2019-2020 and 2020-2021, both enrollment and capacity decreased, resulting in a decrease in fill rate (due to a higher rate of decrease in enrollment). Between 2020-2021 and 2021-2022, enrollment increased while capacity decreased, resulting in an increase in fill rate.</i></p> <p><i>Productivity ranged from 10.6 to 17.1 over the past three years. [Productivity has not been calculated at the institutional level.] The three-year program productivity of 13.6 is lower than the target level of 17.5, which reflects 1 FTEF (full-time equivalent faculty) accounting for 17.5 FTES (full-time equivalent students) across the academic year. (This target reflects 525 weekly student contact hours for one full-time student across the academic year.)</i></p> <p><i>*Note: Fill rates and productivity reported in the table do not include 49 Non-Credit Programming section offerings for summer terms over the past three years. As a result, the enrollment figures reported here might differ from those reported in Section I.A.1.</i></p>			

#### Program Reflection:

The low fill rates of noncredit programming courses, further supports the need for a dedicated Adult Education counselor.

### 4. Labor Market Demand

*This section does not apply to the Non-Credit Programming Program, as it is not within the Career Technical Education Division.*

## **B. Momentum**

### **1. Retention and Successful Course Completion Rates**

*This section does not apply to the Non-Credit Programming Program, as grades are not assigned in non-credit courses (to calculate retention and successful course completion rates).*

### **2. Student Equity**

*This section does not apply to the Non-Credit Programming Program, as grades are not assigned in non-credit courses (to calculate retention and successful course completion rates among equity groups).*

### **3. Retention and Successful Course Completion Rates by Delivery Mode (of Courses Taught through Multiple Delivery Modes, i.e., In-Person, Hybrid, and Online)**

*This section does not apply to the Non-Credit Programming Program, as grades are not assigned in non-credit courses (to calculate retention and successful course completion rates by delivery mode).*

## **C. Student Achievement**

### **1. Program Completion**

*This section does not apply to the Non-Credit Programming Program, as the program does not confer degrees or certificates, based on the taxonomy.*

### **2. Program-Set Standards: Job Placement and Licensure Exam Pass Rates**

*This section does not apply to the Non-Credit Programming Program, as the discipline is not included in the Perkins IV/Career Technical Education data provided by the California Community Colleges Chancellor's Office, and licensure exams are not required for jobs associated with the discipline.*

**IV. PROGRAM PLAN**

Based on the information included in this document, the program is described as being in a state of:

- Viability
- Stability
- Growth

\*Please select ONE of the above.

**This evaluation of the state of the program is supported by the following parts of this report:**

The program is in a state of growth.

- English as a Second Language implemented four certificates of competency.
- The average class size in the program, overall, has increased by 27.9%
- The program has expanded its offering locations, increasing access to students throughout the county.
- We expect continued growth.

Strengths and successes of the program, as evidenced by analysis of data, outcomes assessment, and curriculum:

As the Program Review for non-credit was being addressed and completed in late 2022, there was also work being done to develop new, short-term course offerings in multiple areas aligned with Career Education and Workforce Development. Areas for new classes going to the curriculum committee in 2023 include Workforce Readiness (i.e. diversity in the workplace, communication in the workplace), Anti-Racism, Community Health Worker Training, and more. Development of new, industry related, accessible courses to share with our partners in Napa County is a strength and indicates the area can be poised for growth. It should also be cited that members of the NVC CEWD team are part of a developing collaboration (currently titled the Napa County Industry and Education Collaborative) where these courses may be promoted to align with educational partners in addition to NVC CEWD programs. The data indicates non-credit offerings done in partnership with external agencies generates sustained enrollments and the new offerings can build on this approach.

Areas of concern, if any:

Non-credit and Adult Education does not have a dedicated counselor (or Program Coordinator), which is an area of concern as the campus seeks to expand offerings and onboard non traditional students into these classes.

Recommendations for improvement:

Explore hiring a dedicated Adult Ed and Workforce Counselor to focus on onboarding students into program and increasing enrollments through strategic partnerships with our Adult School, the Northbay Workforce Alliance, and area non-profits.
