AGENDA: Fall August 13 and 14 Flex Day plan and agenda
Professional Development Grants

FLEX DAY:

Models of assessment need to include both instruction and student services. John Dotta will be consulted on which departments have a model to showcase. Jessica Millikan will look for models in the student services area.

For the different levels to be done there needs to be 2 columns, 1 for instruction and 1 for student services.

A list is needed from John Dotta to show where each department is in their levels of assessment. We also need to ask him for examples of model assessments.

It was decided that the Staff Development committee needs to meet with the LOAC committee in September to develop the Spring Flex Day agenda.

PROFESSIONAL DEVELOPMENT GRANTS:

There was a discussion on how the grants have been being handled. It was recommended that the Staff Development Committee oversee all professional development grants to eliminate confusion and work.

Respectfully submitted,
Jan Schardt
