3C Media Solutions offers faculty, staff, and administrations the opportunity to create an account (free of charge) to store and share large video and presentation files that may otherwise exceed the limits in Canvas. We recommend this option over other 3rd party accounts such as YouTube, Vimeo, Google. You receive:

- A personal account for uploading and storing media
- The ability to share media privately or publicly (embed, email link, or post to the 3C site)
- An option to create a 'group' for joint access
- Options to request captioning for your media in a few short, simple steps
- and much more!

1. Go to 3C Media and create an account: <https://www.3cm mediasolutions.org/user/register>

Create new account

Log in

Request new password

By filling out the form below and agreeing to the terms and conditions, you will be a registered member of 3C Media Solutions.

3C Media accounts are available to California Community Colleges faculty and staff only. You must register using your school or organization email address. If you have any questions, please contact [support@3cmediasolutions.org](mailto:support@3cmediasolutions.org)

If you would like the ability to upload videos, you will have the option to request that privilege once your registration is complete and you login to the site.

**Username \***

Spaces are allowed; punctuation is not allowed except for periods, hyphens, apostrophes, and underscores.

**E-mail address \***

A valid e-mail address. All e-mails from the system will be sent to this address. The e-mail address is not made public and will only be used if you wish to receive a new password or wish to receive certain news or notifications by e-mail.

Create new account

2. You will receive an email with a time-sensitive link to create a free account and password.
3. That's it! Once you upload your videos, you can:
  - a. Request to have the video(s) captioned
  - b. Create a link to your video(s)
  - c. Embed the videos right into your Canvas shell without increasing your data limit. Just select the "embed" option under "sharing" in your 3C account and copy/paste that in any Canvas

editor window.
