4. Methods of Instruction:

Field Trips: Students will explore examples of photography in a professional setting such as a Gallery or Museum as well as a commercial venue.

Lecture: Image-based lectures which promote all-class and small group discussion of content.

Other: Collaborative Learning: Small groups explore and assess in-depth a topic covered in lecture. Groups present their findings to peers for further analysis and critique.

Online Adaptation: Activity, Directed Study, Discussion, Group Work, Individualized Instruction, Journal, Lecture

7. Methods of Evaluation: Describe the general types of evaluations for this course and provide at least two, specific examples.

Typical classroom assessment techniques

Exams/Tests -- Will contain objective questions, image identification, attribution of unknown images, and essays. For Example: In an essay, compare and contrast the portraits of Harriet Beecher Stowe and Frances Benjamin Johnston as the New Woman. Consider how each subject is presented to us, use of props, lighting, space. What does each image

communicate about these women?

Quizzes -- Slide identification with questions pertaining to course content. For Example: Connect (Rodchenko's image of Horn Player) with politics at that time.

Research Projects -- Students are to select a paper topic covering some aspect of a period or formal art movement covered in the course this semester. This paper is designed as a research project and students are expected to go beyond the level of information found in the course textbook. Students must find a minimum of five sources for this paper. Of those five, no more than two may be periodical sources and no Internet sources are allowed, except where students can demonstrate the academic verifiability and validity of a source. Paper will be in the MLA format using parenthetical citations. The body of the text must be a minimum of 7 pages and no more than 15. Work will be graded on a 50-point rubric that evaluates format; development of the body of the text including a thesis, relevant examples, integration of research, conclusion and merit of original premise, punctuation, grammar; bibliography; citations and use of images.

Home Work -- Students will apply concepts of analysis--value, contrast, dominant lines, etc., to photographs that they take with their phones/personal cameras.

Letter Grade or P/NP

8. Assignments: State the general types of assignments for this course under the following categories and provide at least two specific examples for each section.

A. Reading Assignments

Selected readings from textbook, periodicals or library collection covering periods, cultures and artists discussed in lecture.

For Example:

1. Read "The Western Landscape - Natural and Fabricated" from "A social History of Photography," and be prepared to discuss the role of landscape in American imagination.

2. Students will read online articles regarding Richard Prince's exhibition of Instagram photos. They will divide into groups to debate the ethics of Prince's show.

B. Writing Assignments

1. Written evaluations of photography viewed in museums and galleries.

For example:

Write a five-page, typewritten analysis of the SFMOMA show "Signs and Wonders: The Photographs of 19c travel photographer John Beasley Greene." In your essay, address how the images are displayed--lighting, captions, exhibition design. Choose one work to analyze formally in terms of value, composition, etc. Finally, connect Beasley's work with that of travel photographers we've discussed in class.

2. Topical essays expanding on course material.

For example:

Write a two-page, of the development and theoretical underpinnings of the work of Carrie Mae Weems.

C. Other Assignments

Creative assignments that address similar methods or themes of photographers and movements studied.

In the style of Dada artist Hannah Hoch, create a photomontage addressing conflicting notions of female beauty from contemporary advertisements.
