NAPA VALLEY COLLEGE
ASSOCIATE DEGREE NURSING (ADN) PROGRAM

The Associate Degree Program in Nursing (ADN) is a four-semester program approved by the California Board of Registered Nursing (BRN). It is designed to prepare qualified men & women to practice nursing in entry-level positions. Upon completion of the program, the student is awarded an AS Degree in Nursing & is eligible to take the National Council Licensure Examination for Registered Nursing (NCLEX-RN). Opportunities are provided for advanced placement, transfer and challenge exam credit.

The Associate Degree Nurse is prepared to coordinate, plan & provide nursing care in hospitals & community settings. The Registered Nurse assists patients with personal care, provides teaching & counseling to prevent illness and promote health, performs specialized treatments, & administers medications. Registered Nurses function as team leaders & direct the care provided by Licensed Vocational Nurses (LVNs), nursing assistants (aides), as well as unlicensed health-care workers.

REQUIREMENTS FOR ADMISSION

- Complete a Napa Valley College Application, do this online at www.napavalley.edu
- Meet with a NVC counselor to develop your education plan
- Complete the following Prerequisite courses with a “C” or better.
  - BIOL 218 - Human Anatomy (5 Units)
  - BIOL 219 - Human Physiology (5 Units)
  - Math 94 and ENGL 90 is a prerequisite for BIOL 218
  - Please Note: BIOL 105-Human Biology or BIOL 120, and Math 94 and ENGL 90 is a prerequisite for BIOL 218
  - Please Note: BIOL 105-Human Biology or BIOL 120 and ENGL 90 AND CHEM 110-Intro to Chemistry are prerequisites for BIOL 219
  - Please Note: MATH 94 - Intermediate Algebra is a Prerequisite for CHEM 110-Intro to Chemistry
  - Please Note: ENGL 90 – Preparing for College Reading and Writing is a Prerequisite for BIOL 219 – Human Physiology
  - BIOL 220 - General Microbiology (5 Units)
  - Please Note: BIOL 219-Human Physiology or BIOL 120 is a prerequisite for BIOL 220
  - ENGL 120 - Reading & Composition
- Napa Valley College will accept 4 unit/lab core biology courses for transfer
- Submit an official transcript with a score of 62% on the Test of Essential Academic Skills (TEAS V) exam.
- Obtain “Official Transcripts” from your High School (or equivalent GED certificate, CHSPE Certificate) and College(s). If they are sent to you instead of directly to Napa Valley College, DO NOT OPEN THE ENVELOPE; WE WILL ONLY ACCEPT SEALED OFFICIAL TRANSCRIPTS. If your High School or College transcripts are from outside the U.S. they must be evaluated by an International Evaluation service prior to submission of your application.
  - Hep B, MMR and Varicella TITERS. For more information, please visit:
- When you have met all requirements, you may then submit your application to the Admissions & Records (A&R) office (with any Official Sealed Transcripts not already at the school) during the published application period. Instructions for how and when to do this will be published on the ADN website.
- All ADN program applicants and current students must maintain an active email address during their time in the program and check it regularly.

A COMPLETE APPLICATION PACKET MUST INCLUDE:
- ADN Program application – Available on the ADN website as per posted application periods.
- All materials verifying that you meet program requirements including Official High School & College transcripts and/or test scores in SEALED envelopes (Unless official transcripts are already on file in A&R or all your College courses have been at NVC).
- Hep B, MMR and Varicella Titer.

We recommend your keeping a copy of your application packet prior to submitting it.
If your application packet is incomplete, it will be returned to you.

Eligibility to enter the Nursing Programs is determined by a “composite score” which is a combination of:
(a) overall college GPA,
(b) English GPA (all English classes with letter grades),
(c) core Biology GPA (Anatomy, Physiology & Microbiology), &
(d) core Biology course repetition(s).
While waiting to begin the Program, you should start working on completing your General Education requirements (page 4, courses listed in bold and underlined) and some of the highly recommended courses listed below.

HIGHLY RECOMMENDED COURSES/ADVISORY

- ANTH 121 - Introduction to Cultural Anthropology
- ANTH 150 - Cross-Cultural Study of Sex Roles
- ANTH 180 - Childhood: A Cross-Cultural Perspective
- ASL 120 - American Sign Language
- CISA 130 - Computer Literacy
- ENGL 125 - Critical Thinking
- HEOC 171 - Medical Terminology (available online)
- HEOC 101 – Pharmacology (available online)
- HEOC 97 – Preparation for Health Occupations
- MATH 232 - Statistics (Required by CSUs)
- HUMA 104 - Comparative Religions
- PSYC 128 - Cross Cultural Psychology
- PSYC 135 - Introduction to Human Sexuality
- SPAN 120 - First Semester Spanish
- Drug Dosage Calculation (not currently offered at NVC)

ESTIMATED COSTS

In addition to usual college tuition and fees, ADN students will have added expenses for uniforms, books, lab kits, orientations, standardized examinations, background checks and drug screening, HealthStream modules and licensing expenses. Fees may be paid using a variety of payment methods including online. (Approximately $4,000-$5,000)

HEALTH & SAFETY REQUIREMENTS

Please visit our NEW Health & Safety page on our website http://www.napavalley.edu/academics/HealthOccupations/Pages/HealthandSafetyRequirements.aspx for NEW guidelines and requirements.

BACKGROUND CHECKS/DRUG SCREENS

The California Board of Registered Nursing (BRN) may deny licensure to any person who has been convicted of a crime. If you have had such a conviction, you should review the California Nurse Practice Act-Section 480 at www rn.ca.gov. The program requires background checks for all students because hospitals require background checks and drug screens. Students will need to pay online for background checks and drug screenings. If they do not clear, they may not be able to meet clinical requirements and may have to be dropped from the program. See student handbook for additional information. See more information on the Health & Safety webpage, as listed above.

APPROXIMATE WEEKLY SCHEDULE

Because of the many hours required for clinical practice (about 12-15 hours per week) and the rigor of the theory classes, students must expect a very demanding schedule. Below is a sample schedule for a student enrolled in nursing classes. Clinicals may be on weekends, evenings, or other non-school days/times.

- Monday: 1:00 pm-5:00 pm - Theory
- Tuesday & Wednesday: 6:50 am-2300- Clinical Practice
- Thursday or Friday: 8:00 am-12:00 pm Theory
- Thursday & Friday: Lab Practice; Computer assignments; Library; Study

SOME CLINICAL FACILITIES AFFILIATED WITH NVC

- Queen of the Valley MC & Community Sites
- Sonoma Valley Hospital
- St. Helena Hospital
- Adventist Specialty Hospital
- Napa State Hospital
- Kaiser Hospital – Vallejo/Vacaville
- Veterans Home - Yountville
- Sutter Memorial - Sacramento
- North Bay Medical Center – Fairfield
- Vaca Valley - Vacaville
- Piner’s Nursing Home
- Napa Valley Care & Rehab Center
- Windsor Care- Vallejo

ADVANCED PLACEMENT OPPORTUNITIES

Students transferring from other nursing programs may be considered for entrance into the 2nd, 3rd, or 4th semester of the ADN program as long as they have passed a Nursing class within two years. Admission requirements are the same as the ones listed in this pamphlet. Submit course descriptions with your transcripts. The Director will complete a transcript evaluation of nursing courses. Transfer students may need to take a standardized exam at their expense and/or demonstrate clinical proficiency prior to acceptance, which will also be contingent on available space in the class. Any transferring student must complete at least 12 units of courses at Napa Valley College to earn an A.S. degree. Re-admits to a class take priority.

Napa Valley College has a collaborative ADN-BSN-MSN program with Sonoma State University. For information, go to http://www.sonomastate.edu/nursing/bsn-post/cnecm.html

Napa Valley College also has a collaborative ADN-BSN program with University of Phoenix that allows students to work on their ADN and BSN concurrently. For information go to: gloria.peralta@phoenix.edu or lara.burch@phoenix.edu or hauntel.jacob@phoenix.edu.

BSN PROGRAMS

NVC counselors & the Transfer Center can help you prepare for transfer to a Bachelor’s Degree in Nursing program at a 4-year college after you finish your ADN at NVC. Review catalogs in the Transfer Center & meet with a counselor for appropriate advice in setting your educational goals.
**FAQ’s (Frequently Asked Questions)**

**HOW LONG IS THE WAITING TIME?**
There is no waitlist. Students are accepted on a first come, first served basis annually.

**HOW MANY ADN STUDENTS ARE ENROLLED EACH YEAR?**
Napa Valley College invites 40 ADN candidates to start the program each Fall (August).

**IF YOU THINK YOU MIGHT HAVE A LEARNING DISABILITY, WHEN & HOW SHOULD YOU GET HELP?**
Diagnostic testing for eligibility for Identification of Students with Learning Disabilities in California Community Colleges is available through the Diagnostic Learning Services Department. Students must be enrolled in 3 academic units to be assessed. The office is located in Room 1766. You may call for an appointment 707-256-7442. The earlier one uses these services, the more likely they are to benefit. Please do not wait until you start the nursing program to seek this assessment.

**WHAT CAN I DO TO MAKE THE BEST USE OF MY TIME WHILE I WAIT TO ENTER THE ADN PROGRAM?**
The students who are most likely to succeed in the ADN program are those who use the time before they enter to build the academic foundation needed for the rigorous program. A NVC counselor can help you select courses to build this foundation. Once you are ready you are encouraged to take all the co-requisite courses underlined and bolded on the next page. (Social Science, Career Communications, Math, etc. & other recommended courses)

**IS THERE AN ADVANTAGE TO WORKING IN A HEALTH-CARE SETTING BEFORE I START THE PROGRAM?**
Yes, if you are employed in the health-care field before you begin the program you will probably feel more comfortable in the lab & clinical settings, become more familiar with medical terminology and develop the communication skills needed to be an effective nurse. Some health facilities provide scholarship assistance to their employees who are pursuing a career in nursing.

**WHAT IS A FOREIGN TRANSCRIPT EVALUATION?**
If your High School or College transcripts are from other countries they must be evaluated by an International Evaluation Service prior to submission of your application, or you must provide Napa Valley College with a certificate from the International Evaluator. Forms are available on the Admissions & Records webpage.

---

**TESTING and TUTORING CENTER**
All students are encouraged to complete Math and English placement testing before they register for classes. Placement testing is offered year-round on a drop-in, first come-first-served basis, appointments are not necessary. You must bring a picture I.D. and have completed an online application. If you have completed Math and English placement testing at another college within the last two years, bring a copy of your test results to the Napa Valley College Testing and Tutoring Center for evaluation. 707-256-7434

---

- **Prerequisites:** A course requirement that must be completed prior to enrolling in another course.
- **Co-requisite:** A course that is required to be taken at the same time or before another course.
- **Advisory:** A course, or other preparation, which is recommended in order to increase a student’s probability of success in the program or improve eligibility for transfer to a BSN program.
The following sequence of courses is approved by the Board of Registered Nursing.
The only way to reduce the time demand is to take the non-nursing courses **BEFORE** starting the program.

Courses listed above in **BOLD AND UNDERLINED** can all be taken before starting the nursing courses.

- **BIO1 105-Human Biology: Nutrition, Health & Disease or BIOL 120, and Math 94 and ENGL 90** is a prerequisite for BIOL 218-Human Anatomy
- **BIO1 105 or BIOL 120 and ENGL 90 AND CHEM 110** are prerequisites for BIOL 219-Human Physiology
- **BIOL 219 or BIOL 120** is a prerequisite for BIOL 220-General Microbiology
- **PSYC 125 – Human Development** is a prerequisite for NURS 143 & NURS 144 **AND** must be completed before beginning the second semester.
- **SPEE 124 – Career Communications** is a course that combines Interpersonal Communications and Public Speaking.

To qualify for the A.S. degree students must complete all courses listed under “Sequence of Courses” with a grade of “C” or better.

Students must complete MATH 94 or higher, or equivalent, to meet graduation requirements at NVC. Students who take the ADN pre-requisites at NVC will take MATH 94, prior to entering the program, as it is a prerequisite for CHEM 110, which is a prerequisite for BIOL 219. However, students who meet their prerequisites elsewhere might not have taken intermediate algebra.

Students may select a Social Science or Humanities elective that meets the Cultural Diversity requirement for graduation.

Humanities is a degree requirement. It is not required for eligibility to take the NCLEX-RN. Students who do not receive an A.S. degree in Nursing probably will not be eligible for licensure by endorsement in other states.

To remain in the nursing program, students must maintain a "C" grade or above, in all required Arts & Science courses & Nursing theory courses, have satisfactory evaluations in all clinical experiences & meet national standards in standardized tests.

Computer literacy is required in the program.

Multicultural/Gender Studies is a degree requirement (Course may double count for one other general education area, where that particular course appears). Courses will explore cross-cultural views, including male/female perspectives and contributions.

The best way to ensure all requirements have been met for the program and graduation is to keep in contact with your counselor.
Advanced Placement and LVN Students

There is no "VN to ADN Bridge program" currently. LVN applicants who desire to enter the ADN Program as a transfer student will be subject to the same eligibility requirements as other ADN transfer students indicated in preceding pages. As previously indicated, students may be admitted to the ADN program only on a space available basis.

Required Prerequisites:
- A current valid California LVN license
- ENGL 120 – Reading & Composition I
- BIOL 218 – Human Anatomy AND BIOL 219 – Human Physiology (4-5 units)
- BIOL 220 – General Microbiology (4-5 units)
- PSYC 125 – Human Growth & Development (Life Span)

30 Unit Option: The 30-unit option was created by the legislature for LVN’s. LVN’s complete 30 units of nursing and related sciences, but do not meet graduation requirements for the ADN Program. They may be able to take the NCLEX-RN in California ONLY and may not be able to become licensed by endorsement in other states. Students choosing the 30-unit option are enrolled on a space available basis only, and must declare their intent for the 30 unit option to the Director of Nursing prior to evaluation / acceptance into the program. Once enrolled in the ADN program, a graduation-track student may not decide to change to the 30 unit option, nor may a 30 unit option student decide to change to graduation-track.

CREDIT BY EXAMINATION (CHALLENGE) See the NVC Catalog concerning credit by examination. In accordance with college policy, credit by examination may not be used to change a previous grade, to remove a "W" (Withdrawal) notation or to change an "I" (Incomplete grade). The grade and credit on a challenge exam, including grades of “D” and “F”, will become part of a student’s permanent record.

Students seeking to challenge a nursing course must: (1) take the exam(s) in sequential order and achieve a minimum grade of “C” (75%) or equivalent (per student handbook) to pass. Most challenge exams are National Standardized exams, that will need to be ordered and proctored by NVC, and the student will need to pay for the exam on-line prior to being able to test and (2) pass a demonstration of clinical proficiency for the course being challenged. Please note that failure of either of these indicators of proficiency will be considered a failure in the course and given a grade of “F” and cannot be repeated via challenge exam process.

NON-DISCRIMINATION POLICY:
The Napa Valley Community College District, in compliance with state and federal policies, regulations and statues, does not unlawfully discriminate on the basis of race, religious creed, color, national origin, ancestry, physical or mental disability, medical condition, marital status, gender, sexual orientation, or age. The college encourages participation by minorities, women and persons with disabilities in the district’s employment and educational opportunities.

The college is committed to overcoming gender discrimination and stereotyping in vocational education programs. The lack of English language skills will not be a barrier to admission and participation in career education programs. For information regarding the college’s equal opportunity/affirmative action policies or to file a complaint, contact Dr. Oscar DeHaro, Vice President, Student Services (707) 256-7365. For information regarding the requirements of Sections 503 and 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act or to file a complaint, contact Special Services, 707-253-3080 (voice), 707-253-3085 (TDD).

Updated June 2016
