Current Events Assignment #1

Read through the following articles and write a 1 ½ to 2 page analysis on one of them. The analysis should summarize the political issue being discussed, and should incorporate some of what you have learned so far about the US government in the analysis (for instance, how does the issue relate to Federalism? Separation of Powers?) I will post an example on the webpage soon, which you can use as a model, or you can 'go rogue' if you wish - I only care that you bring insights from class into your analysis

Articles to choose from:
