

## **Classified/Management Position Request Process**

A revised process for the review of vacated and new position requests for Classified and Management staffing has been approved by President's Cabinet.

In relation to the 2025-2026 budget development process and expectations:

The College does not anticipate adding significant staff for the 2025-2026 budget. When new or replacement staff requests are submitted, the College, through President's Cabinet, will consider overall staffing levels, their relation to students served, fiscal impact, and its effect on the 50% Law.

Requests for staffing (replacement and new) will require completion of the "***FT Staff and Management Position Screening Form & Ranking Matrix***" (This form will be replacing the "*Position Request Form*" which will be made available on the Human Resources website in the near future).

**Note:** The request for staffing (new or replacement) can be made at any time during the year, however, submissions for new positions are highly encouraged during the scheduled budget development cycle.

### FT Staff and Management Position Screening Form & Ranking Matrix

Cabinet will serve as the vetting/recommending body for all staff and management position requests, which include any recently vacated positions. There is no assumption of automatic replacement. Recommendations to the Superintendent/President will be made based on the needs and opportunities of the college as a whole. When a position is authorized, it means that the need has been vetted, is in the budget, and is approved for recruitment.

Cabinet will review requests on an ongoing basis. However, all requests should also be documented in an area's unit plan in order to tie planning to budgeting. **Submit the completed document to your area Vice President.** Authorized positions will be noticed at least twice per year.
